Education

Georgia Institute of Technology

Atlanta, GA

Bachelor of Science in Computer Science

May 2024 - May 2026

GPA: 4.00 / 4.00; Cybersecurity + Intelligence Threads

University of Maryland

College Park, MD

GPA: 3.87/4.00; Dean's List two semesters

August 2023 - May 2024

Technical Skills

Languages: Python, Java, C, C++, C#, HTML/CSS, JavaScript, OCaml/F#, Rust, Assembly

DevTools: Git/GitHub, Linux, Visual Studio Code, IntelliJ, Jupyter Notebooks, Docker, Unity, Android Studio

Libraries/Frameworks: NodeJS, OpenCV, NumPy, Pandas, PyTorch, Tensorflow, Flask, React, NLTK, Django

Coursework

Computer Systems, Discrete Structures, Organization of Programming Languages, Algorithms, Machine Learning, Computer Vision, Artificial Intelligence, Data Structures, Critical Infrastructure

Work Experience

George Mason University

Fairfax, VA

Research Assistant

July 2023 - August 2023

- Utilized Python and fine-tuning of ChatGPT 3.5 LLM to create a chatbot for addressing community questions about climate change by integrating into a website platform

George Mason University

Fairfax, VA

Serious Game Developer Intern (ASSIP)

June 2022 - August 2022

- Principal developer, designer, and leader of "The Cold Front", a serious game development project raising awareness on the war in Ukraine, built in Unity with C#
- Demonstrated the use cases of serious games in promoting important messages to players on the importance and relevance of global geopolitical events in everyday lives

Thomas Jefferson High School for Science and Technology

Alexandria, VA

Student System Administrator (Sysadmin)

June 2021 - June 2023

- Lead Sysadmin in charge of school network resources, separate from public school system network
- Developed and maintained critical and essential technological resources used by students and faculty on a daily basis, including the school intranet, webmail, workstations, compute clusters, and signages

Projects

Multicast Mobile

August 2022 - July 2023

- Novel technology demonstration Android mobile application for IP multicasting live streaming via automatic multicast tunneling and multicast to unicast translation as part of research in collaboration with IETF MOPS and MBONED working groups
- Work presented at Internet Engineering Task Force meeting 114 in the MBONED working group to industry professionals and researchers

Additional Interests

Languages: Conversational in Chinese

Interests: Aerospace/Rocketry; Motor Racing; Gaming; Swimming; Sports
